IDEAS + PLANNING  
+ INFORMATION

# The SHELFSTORE furniture system...

... is a flexible, easily assembled system of shelves, doors, drawers, tables, beds and lots more!

● Door infill panels can be solid polished wood, take a colour wash or accept fabric.

The panels are easily changed to freshen-up or change the age feel.

● Your bed can be moved up or down as needs change.

● Moving the location of your furniture, or just changing the layout, is simple - the **PLANNING TEAM** will always help.

● As with the doors, the infill panels for uprights can accept a colour wash. The infill slides into a slot in the top of the upright and can be changed when up-dating!

Just about any arrangement can be created to suite both your special needs and the available space.

**ESTABLISHED 1948**  
The system has existed since 1948 and you can always add on.

## SHELFSTORE PLANNING GUIDE

● Our planning team specialise in children's bedrooms; they have lots of experience and are here to help, so please use them.

● Measure your space and fill-in your planning sheet. Be sure to supply a daytime phone number so that your planner can discuss any detail.

● Describe briefly what you need to achieve.

● If one of our photographic examples or line drawings comes close to what you need, please attach a copy with your comments.

● 1st stage drawings will be produced which can be talked through with your planner and modified as necessary.

● When plans are agreed, detailed costings will be provided and items such as delivery times and transport will be concluded.

Above prices correct at 1/10/99 - prices exclude mattress

## Children grow and change... ...so will your SHELFSTORE furniture!

These two arrangements have exactly the same components, just arranged differently.
